

Invesco Closures and Early Closures Information

For access to your funds during any Invesco closures, please contact CoBank Customer Service at (855) 245-2988 or by email at customerservice@cobank.com by 10:00 am MT the day prior to the closure or early closure. This will allow CoBank to hold funds from going to Invesco to prevent triggering a loan balance while there is an Invesco closure and allow you access to the funds.

If you do not contact CoBank prior to the closure, the following are two other options for updating balances:

1. The following business day after the closure you can utilize the Online Banking Payments & Transfers functionality to transfer funds from Invesco to pay down any loan balance that may have occurred from the Invesco closure. Please refer to the Payments and Transfers Instructions document on how to make a transfer.
2. You may also request for CoBank to use the available Invesco funds to pay down the loan balance that resulted due to the closure by contacting CoBank Customer Service at (855) 245-2988 or by email at customerservice@cobank.com.
